- Our tour leaders have the authority to address any of the above issues and to take the necessary action in consultation with Africa4us, even if it means to ask a group member to leave the trip to ensure the safety and enjoyment of the trip for the rest of the group.

How fit and healthy do I need to be for your trips?

- Our tours are of an adventurous nature and some activities could require a person to be actively involved, so we require all participants to be "young at heart", in good health and have a flexible outlook on problem-solving and participation in a group setting.
- You need to be fit enough to take your own luggage in and out of the vehicle and carry it to and from your room.
- You need to be able to travel long distances on some days.
- You must be able to get in and out of an overland safari vehicle with ease and un-assisted.

Do I have to be of a certain age to join a tour?

- For the best tour experience for all, please keep in mind that your trip might include travellers of all ages.
- You need to be 18 years old on the departure date of the trip. If you want to travel together as a family with children, you can contact us to provide a tailor-made trip designed for your needs. There is no “maximum” age limit on our trips but please keep in mind that relative fitness and mobility is required to keep up. Please see ***Can I join your tours if I have a medical condition or if I am differently abled?***
- Detailed information is provided about the style of each tour and the itineraries, therefore different travellers booking the same tour will generally share the same interests, irrespective of age or abilities.

Can I join your tours if I have a medical condition or if I am differently abled?

- If you have a medical or psychological condition e.g. heart condition, high blood pressure, diabetes, allergies, bipolar, epilepsy, life threatening allergies or any other serious medical condition or if you need to take chronic medication, please notify us in advance and provide a letter from your medical practitioner confirming that you are fit to travel.
- Please note that our tours sometimes go through remote areas that are far from medical help. It is, therefore, important that your condition can be controlled with self-medication.
- Please make sure to bring along all necessary medication as you might not always have access to medical facilities.
- It is advisable to take out extra medical insurance for your pre-existing medical condition to make sure you are covered for an emergency medical evacuation.
- Please note that our vehicles and most accommodation establishments are not wheelchair friendly.
- Although our vehicles are equipped with fridges we are not able to guarantee a constant temperature for diabetes medication.
- Some road conditions are poor which might result in an uncomfortable, bumpy ride which is not suitable for travellers with chronic back problems.
- Although your adventure crew will aim to give every traveller as much personal attention as possible, the well-being of the whole group remains important. The adventure crew will therefore not be able to provide constant attention to a specific person only and you should be able to complete the day’s activities unaided.

What about solo travellers?

How do the optional activities work?

- Every tour is designed to capture the best of the area and give you the most exhilarating experience.
- During each tour, there may be times where you would like to venture off on your own and explore at your leisure or do some activities not included in the trip.
- Your adventure crew will inform and advise you on optional activities and excursions available on your tour.
- These activities do not form part of your pre-booked travel arrangements with us.
- We are not involved or have any supervision or control over any of the optional activities.
- These activities are provided by local operators and are entirely independent of us. We can, therefore, not ensure that they have public liability insurance in place.
- None of these operators, form part of the contract between you and Africa4us, we merely make suggestions for credible and reputable operators for activities and excursions.
- Should your adventure crew collect payment for or otherwise assists in making reservations for activities, he/she solely acts as a booking agent for the operator. You will have a contract with the operator and not with Africa4us. The local operator/provider's terms and conditions will apply.
- Africa4us cannot accept any liability on any basis in relation to such activities or excursions. We also cannot guarantee that any optional activities and excursions as by time of publishing our brochure or website will be available at the time of your tour. Rates are also just an indication and may vary. We will not be held liable for whatever reason if the activity does not operate as advertised.

Drone Laws

Africa4us do not allow any drones on our tours due to the different drone laws for different countries and the respect for privacy. Africa4us and their staff will not accept responsibility and cannot be held liable should you be fined, legally prosecuted or your drone confiscated due to not adhering to our rules.

Do I need inoculations to visit Africa?

- Some countries we visit may require inoculations. It is your responsibility to consult with your travel doctor or clinic for up to date medical travel information well before departure.

- Yellow Fever Certificate: It is compulsory to show a valid Yellow Fever Certificate if you are travelling to Southern Africa from a Yellow Fever endemic country.
- If other countries not endemic to Yellow Fever are visited (such as Botswana and Namibia), after visiting endemic countries, then a Yellow Fever certificate will still be required on entry into Southern African countries.
- We recommend you contact your family physician, or your local travel clinic for the most up-to-date health information at least one month before departure.
- Some tours enter malaria areas, and it is your responsibility to ensure you contact a medical professional well in advance of travel to obtain the recommended prophylactics.

What documents do I need for travelling to Africa?

We recommend storing electronic copies of all your travel documents in a secure online storage place such as Dropbox.

- Passport (with photocopies) Citizens from all countries require a valid passport (with minimum 6 months' validity and at least two clean pages).
- Travel insurance (with photocopies).
- Medical insurance (with photocopies).
- Airline tickets (with photocopies).
- Credit or debit card (Visa cards are recommended).
- Africa4us vouchers, pre-departure information and dossier.
- Any entry visas or vaccination certificates needed.
- Yellow Fever Certificate as mentioned in "Do I need inoculations to visit Africa?".
- Sufficient funds.
- A return or onward ticket.

What visas might I need?

- Contact your local embassy or consulate for the most up-to-date visa requirements. Most countries also have websites where these specific requirements can be found.
- It is your responsibility to ensure that you have the correct travel documentation.
- Visa requirements for your trip could vary depending on where you are from and in some cases where you have been prior to visiting us.
- The following information is a rough guideline. While we provide the following information in good faith, it is vital that you inform yourself and be sure to comply with all entry requirements for all countries visited on tour.
- Information provided is based on the following assumptions:
 - Valid for Non-South African passport holders
 - The requirements are based on tourist and not business applications
 - You have the necessary funds/tickets/paperwork in place
 - The travellers' passport should remain valid for a period of 6 months after the travellers' departure.

Some visas can be obtained on arrival, (this is applicable to most nationalities travelling to Zambia and Zimbabwe (although there are exceptions, please double check before departure) and these can only be paid for in US\$ cash at the point of entry. It is possible to apply for an e-visa for Zambia and Zimbabwe as well, but visas are still issued at the point of entry. Visas for South Africa, Swaziland, Lesotho, Namibia, and Botswana can only be obtained at an embassy or consulate prior to arrival.

Money

What should my personal budget be for the tour?

- We all have different spending habits, please take that into consideration when planning and budgeting your trip.
- There are many opportunities on all the tours to buy souvenirs – you might want to spoil yourself with some unique memorabilia.
- Water is drinkable from taps in South Africa and Namibia but for other countries, it is recommended to buy bottled water. A litre of water costs about 1 USD in most countries.
- You might become peckish on the long driving days and there will be plenty opportunity to stock up on local snacks.
- On our accommodated tours you will be responsible for your own lunches (budget US\$10 to US\$15 depending on whether you buy a take-away or opt for a sit-down lunch. When visiting Zimbabwe, budget US\$15 to US\$20 per lunch).
- Cash withdrawal facilities in Zimbabwe are very unreliable. Please ensure you have enough USD cash for your stay. USD notes need to be younger than 2009.
- Most dinners are included and will be served by your overnight host or by your adventure crew with some own expense meals along the way - to give you the opportunity to experience the local cuisine (local is lekker). Budget about US\$20 to US\$30 for own expense dinners.
- Many activities are included in your tour price. There are numerous opportunities to do optional activities that suit your personality and lifestyle – anything from cultural experiences to sky-diving. You will be able to pay with credit card at most of the big activity suppliers but keep in mind that some might add a small percentage surcharge.
- Activity guides such as the polers in the Okavango Delta, game drive guides etc. will be grateful for a tip as a token of your appreciation. Tipping and the amounts remain a personal choice and you will be under no pressure at all to tip but your adventure crew will advise the group accordingly.
- In restaurants, the recommended percentage to tip is 10% of your meal price.
- Most African countries offer an E-visa facility but if you plan to buy visas at the port of entry (only possible at Zimbabwe) then you need to budget for this. For most nationalities, the fees are US\$50 for Zimbabwe varies from US\$30 to US\$80. These visas can ONLY be paid in USD. No local or any other currency will be accepted.
- It is best to stock up on cash on arrival at the airport. ATM's are widely available for easy cash withdrawals, but there might be times when we enter rural areas with no facilities or there might be incredibly long queues on pay days. Your adventure crew will advise accordingly.
- Consider taking more money rather than less, as you do not want to spoil your trip by constantly feeling short of funds. Emergencies are rare, but it is still a good idea to have an emergency fund available, kept separate from the rest of your funds. We suggest a minimum of \$150 USD.
- Have an extra bank card available and keep it separate from your other cards for emergencies.

How should I keep my money safe?

- On our **Premium Accommodated Adventure Tours**, you have access to a personal safe on the vehicle whilst on tour.
- For your own safety, keep your money and valuable documents in a money belt around your waist or around your neck, underneath your clothing. Leave your valuable jewellery at home. On the **Premium Overland Safari Vehicle**, a small personal safe is fitted to each personal storage box next to your seat to store your valuables. Keep the code private! Most hotels, lodges and guest houses will have safety deposit boxes available.

How would I be able to make payments on tour?

- A combination of foreign currency and debit/credit cards for cash withdrawals is best.
- Please do not bring Traveller cheques to Africa, as they are not readily accepted.
- Visa/Plus/Maestro/chip debit cards are accepted by most places, while MasterCard/Cirrus cards might not work everywhere.
- We highly recommend that if you hold a MasterCard, you obtain a prepaid Visa Travel Card prior to departure and travel with both. This could also be useful should something unforeseen happen to one of your cards during your travels. Your adventure crew will advise you on payment options.

What currency is accepted?

- All countries have their own currency that can be obtained locally by foreign exchange or ATM withdrawals if available, except for Zimbabwe which trade only in USD.
- Your adventure crew will inform you where you can exchange money throughout the tour. Occasional power outages are common all over Africa, so you might not be able to withdraw cash at ATM's along the way and it is best to withdraw money at the main centres or airports.
- The easiest foreign currency to exchange for any of the local currencies is the US Dollar, British Pound and Euro. Please note that US notes should not be older than the year 2009 and should not have any markings on it. A mix of big and small notes will work well. To exchange money, you get a better rate for bigger notes but if you want to buy something small and pay in a foreign currency then smaller notes will work best as change might not be always available. Currency exchange rates fluctuate daily so it is best to follow websites, such as www.oanda.com for current exchange rates.
- Please note that only local currency is accepted in local super markets and restaurants etc.
- Foreign currencies can be used to pay for most activities and can be used at local street markets.
- If you plan to buy your visas at borders, you will need to have cash in US Dollars.
- Currencies for different countries:
 - Botswana: Pula (BWP)
 - Lesotho: Lesotho Loti (LSL). *South African Rand is accepted.*
 - Namibia: Namibian Dollar (NAD). *Equivalent to the South African Rand*
 - South Africa: South African Rand (ZAR). *Accepted in Namibia.*
 - eSwatini (Swaziland): Lilangeni (SZL) *South African Rand is accepted.*
 - Zimbabwe: US Dollar (USD).

Do I need to tip?

- Tipping is an expected and common practice all over Africa, but it remains a personal choice to tip or not.
- Tipping remains a way of expressing your appreciation to the people who assisted you on tour, including your adventure crew.
- When tipping, we suggest that the whole group plan together on how and when tips will be handed over. To ensure anonymity all tips can be placed in an envelope and handed to the specific person as a gift. This method allows for a friendly and appreciative interaction between the group and adventure crew or local guides. We suggest tipping US\$3-5 per person per crew member or local guide per day.
- The accepted guideline for tipping waiters is 10 % of the total value of your meal.

Health, Safety and Security

Is Africa safe?

- All countries have their own travel advisories and provide regular and updated information on foreign destinations.
- Check your government's advisories for their latest travel information before departure.
- Sometimes unforeseen situations develop which might compromise the safety of the group. If deemed necessary, routes will be altered to ensure your safety. Your adventure crew has the authority to amend or cancel any part of the tour itinerary if deemed necessary, for your personal safety.
- Most cities visited are safe during the day, but we do not recommend wandering alone at night. When going out, make sure that you are in small groups and take taxis to and from restaurants at night.

How do I know I will be safe?

- Your safety is our priority. Our itineraries are designed with your safety and well-being in mind.
- Your tour leader and driver know the countries visited and will advise on potential dangers and the safety precautions to be taken.
- From experience, the safest possible way to travel Africa is together in a group, under the responsible leadership of your adventure crew. This also applies to national parks and other areas where wildlife roam. However, it is your responsibility to exercise common sense and caution at all time.
- For your own safety, keep your money and valuable documents in a money belt around your waist or around your neck, underneath your clothing. Leave your valuable jewellery at home. On the **Premium Overland Safari Vehicle**, a small personal safe is fitted to each personal storage box next to your seat to store your valuables. Keep the code private! Most hotels, lodges and guest houses will have safety deposit boxes available.

Passenger luggage and personal effects

- Baggage and personal belongings are carried entirely at owner's risk. Africa4us will not be liable for any loss or damage arising from delay, sickness, injury, and death to any passenger, or of their luggage or personal belongings, in any manner, whatsoever.
- Under no circumstances may passengers carry with them on the coach or trailer attached thereto, weapons, explosives or items which are, in the sole opinion of Africa4us, its employees or officials, dangerous or hazardous, or of such nature as is likely to cause offence or injury to other passengers or damage to their property.

What other health hazards should I be aware of?

Insects

- Africa has its share of insects. Mosquitos are more commonly found in areas with a high rainfall.
- Some precautions to take against insect bites:
 - Wear protective clothing, long sleeve shirts and trousers at night.
 - Wear natural colours, khaki or olive. Bright colours tend to attract insects.
 - Use insect repellents.
- Your adventure crew will advise about any other precautions that you need to take.

Sun

- Africa is the continent of the sun. Throughout the year, it is advisable to use sunscreen and a hat when outdoors.

Hydration

- Drink water! It is important to stay hydrated, especially in extreme heat. You will be advised if water quality is not for human consumption. If it comes out of a tap, it is not necessarily safe.
- Bottled water is readily available.

Diarrhoea

- It is normal for people travelling overseas to get an upset stomach due to a change of climate and food. This usually pass after a few days after you have acclimatized.

How can I share feedback after my trip?

- If you have any concerns during your tour please inform your adventure crew immediately, and if for whatever reason you feel the situation was not resolved, please contact our office directly.
